## Test Case Template

For each test, the developer should: provide a test description, a test objective, the developer name and date tested. For each step, fill out the actions to be taken and describe the expected results, and indicate yes or no for each step depending upon the result. The peer tester should provide their name, date tested, indicate yes or no for each step depending upon the result, and a screenshot (thumbnail) of the result.

# Test Case Template

Test 1	<b>Access the Website via URL</b>			
	<b>Test Objective:</b> Verifies input data meets requirements	<b>Developer:</b> Irene <b>Date tested:</b> 2025/06/22	<b>Peer tester:</b> Rachel Shaw <b>Date tested:</b> <2025/06/22>
